A petition for a five-month extension of time and its requisite fee are enclosed here with. The Examiner is requested to enter the amendments and consider the application.

THE AMENDMENTS

In the Claims

- B1
1. (Amended) A method of functionalizing a support, comprising the steps of:
activating a functional group on a support surface with an activating reagent, and
subsequently reacting the activated functional group with a polyamine component to
produce a dendrimeric structure on the support surface, wherein the activating reagent is
acryloylchloride, 4-nitrophenylchloroformate, carbonyl diimidazole, phenyl
chloroformate, phosgene, disphosgene, triphosgene, EDC(N-(3-dimethylaminopropyl)-N'-
ethyl-carbodiimide hydrochloride), N,N'-diisopropyl carbodiimide, dicyclohexyl
carbodiimide, disuccinimidyl carbonate, disuccinimidyl oxalate, dimethylsuberimidate
dihydrochloride, or phenylene diisothiocyanate.
